

360H Ultra Miniature Chopping Head

All dimensions in mm

Maximum rotational speed is 15000 rpm (250 rps), however lifetime is proportional to the number of rotations so the slower the speed the better. The 360C OEM drive board will also only spin the motor to just over 10000 rpm.

- G - Motor Positive
- H - +5V
- I - Reference
- J - OV
- K - Motor Negative
- P - 0V
- Q - +1.2V (ish)
- R - +5V
