

Model 1700 Series

Non-Contact/Amplified Output Torque Transducer

DESCRIPTION

These transducers are suitable for laboratory applications as well as industrial environments because of their compact size and multiple mounting options. The contactless transmission of supply voltage and measuring signal enables continuous operation with low maintenance.

FEATURES

- 0.02 Nm to 1500 Nm capacity range
- 0.25 % accuracy
- Built-in instrumentation amplifier (± 10 V output) (standard)
- Speed sensor or angle encoder option
- Contactless
- Compact size
- Wide application range

Model 1700 Series

PERFORMANCE SPECIFICATIONS

Characteristic	Measure
Torque range	0.02, 0.05, 0.1, 0.2, 0.5, 1, 2, 5, 10, 20, 50, 100, 200, 300, 500, 1000, 1500 Nm

ENVIRONMENTAL SPECIFICATIONS

Characteristic	Measure
Temperature, operating	0 °C to 60 °C [32 °F to 140 °F]
Temperature, compensated	5 °C to 45 °C [41 °F to 113 °F]
Temperature effect, zero	0.02 %/°K
Temperature effect, span	0.01 %/°K

ELECTRICAL SPECIFICATIONS

Characteristic	Measure
Supply voltage	12 Vdc \pm 10 %
Current consumption	less than 200 mA
Rise time	2 ms*
Limit frequency (3dB)	200 Hz
Voltage output	0 V to \pm 10 V
Internal resistance	100 ohm
Ripple	<100 mVpp
Overall accuracy	<0.25 %

* Standard rise time is 2 ms for all transducers 1700 to 1706, in combination with limit frequency 200 Hz.

MECHANICAL SPECIFICATIONS

Characteristic	Measure
Mechanical overload	200 % of rated output

SPEED SENSING (RPM) (S) OPTION

Characteristic	Measure
Speed max.	10000 RPM
Output	Open collector
Internal pull-up	100 kOhm (5 V level)
External pull-up	24 V max.
I max.	20 mA
Pulses/rev.	60

ANGLE (E) OPTION

Characteristic	Measure
Speed max.	3000 RPM
Pulses/rev.	360
Resolution	1°
Phase shift	Quadrature

Warranty. Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items it finds defective. **The foregoing is buyer's sole remedy and is in lieu of all warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.**

While we provide application assistance personally, through our literature and the Honeywell web site, it is up to the customer to determine the suitability of the product in the application.

Specifications may change without notice. The information we supply is believed to be accurate and reliable as of this printing. However, we assume no responsibility for its use.

Find out more

Honeywell serves its customers through a worldwide network of sales offices, representatives and distributors. For application assistance, current specifications, pricing or name of the nearest Authorized Distributor, contact your local sales office. To learn more about Honeywell's test and measurement products, call **+1-614-850-5000**, visit **<http://measurementsensors.honeywell.com>**, or e-mail inquiries to **info.tm@honeywell.com**

WARNING

PERSONAL INJURY

- DO NOT USE these products as safety or emergency stop devices or in any other application where failure of the product could result in personal injury.

Failure to comply with these instructions could result in death or serious injury.

WARNING

MISUSE OF DOCUMENTATION

- The information presented in this datasheet is for reference only. DO NOT USE this document as product installation information.
- Complete installation, operation and maintenance information is provided in the instructions supplied with each product.

Failure to comply with these instructions could result in death or serious injury.
